## Office Circular

It is a matter of great pride and honour to all of us that MHRD has selected UTU for TEQIP- Phase 3. We are well aware that UTU has initiated and organized several programmes to foster a complete ecosystem (at UTU) for the improvement of technical education quality, skill enhancement, facilitate innovation and strong motivation for various noble start-ups. Focussing on the employability of its students UTU has already established a Nodal Centre for placements, the Academia- Industry Forum (at UTU) has recently been launched by Hon'ble CM of Uttarakhand. It has been envisaged that UTU would establish satellite placement centres at all partner institutions of UTU for intense rearing of employability. Recently UTU has also organized several other programmes including FDP to create a conducive environment for R & D and to keep our faculty and students updated with recent trends and development in new technologies. With the background of these recent initiations of UTU, it is now of warrant need and of utmost importance that our partner institutions (constituent and affiliated) not only to join hands with UTU but come one step forward to host organize several (some of) of their programmes for overall quality improvement in Technical Education at their institutional level.

The details proposals to organize such activities within the preview of TEQIP-III, at own institutional levels are most welcome by UTU. After scrutiny, merit, discussions as well as mutual understanding for the benefit of students, such programme may jointly be organized with UTU. Partner institutions are hereby suggested to come forward to submit the proposals for various activities.

  
(Dr. Anita Rawat)

Registrar/ Coordinator TEQIP-III
