

!! Vice Chancellor's Message on New Year !!

On the first day of the year, I extend my best wishes for a happy, healthy, and prosperous new year 2023 to you and your family.

This is also, the occasion to thank all for their support and commitment that has kept the University marching forward in its journey of improving the quality of education. I feel pride in whatever we achieved together in the University & its institutions and am excited to create and utilize the opportunities lying ahead.

It's time to realize that the present generation of millennials and zoomers calls for a dynamism and innovations in the higher technical and professional education. Nearly ubiquitous internet access has faded the geographical boundaries and the aspiration levels of stakeholders have risen for getting the best from higher education institutions. The bench marking of education processes and their outcomes with respect to other institutions is compelling the University and its Institutions to remodel themselves holistically to offer world-class education. It is well-timed for the institutions to come along and prepare for their assessment and accreditation by national accrediting bodies and be proud partners in the University's ambition of excellence in education. University will be endeavoring to handhold its institutions to get prepared for participating in the accreditation process at the earliest in the year 2023.

In the recent past, the University has initiated the process of setting up a comprehensive and robust ERP software – University Management System for its admissions, enrollment, academic regulation, examination, and allied processes which is likely to be fully functional in the year 2023. This will enhance transparency, efficacy, fairness, and accountability in university activities.

Simultaneously, the efforts are also being made for engaging students, teachers, officers, and staff to contribute to the accomplishment of the UN's Sustainable Development Goals. I am sure that in the year 2023, the University community will be joining hands to make tangible contributions towards Sustainable Development Goals for better future.

You are aware that the Uttarakhand Technical University established on 27th January 2005 is still in its teens and will soon be completing 18 years of its existence in service to society on 26th January 2023. University is envisaging celebrating its 19th Foundation Day on 27th January 2023 in its premises along with the alumni meet under the aegis of the newly established UTU Alumni Association. This is an attempt to rejoice in the raising of VMSB Uttarakhand Technical University and strengthen the alumni network along with sensitizing them to help their alma mater in different possible ways.

I earnestly appeal every stakeholder for partaking in the progression of the entire ecosystem of VMSBUTU on a new trajectory of becoming a dynamic and vibrant University responsive to the changing global trends.

With the privilege of being Vice Chancellor of VMSBUTU for 166 days now, I assure you of trying my level best to offer exemplary, diligent, honest, committed, fair, and firm leadership within the legitimate framework. This also entitles me to expect similar cooperation from all institution promoters, head of institutions, teachers, officers, staff members, students, and alumni for their wholehearted involvement in the transformations for student centric value-based teaching - learning - evaluation processes in VMSBUTU to create it as a sought-after destination for higher technical and professional education in the country.

Let, the collective efforts of university fraternity revamp the Veer Madho Singh Bhandari Uttarakhand Technical University and glorify it in the year 2023.

With Best Wishes!

Prof.(Dr.) Onkar Singh
Vice Chancellor

VEER MADHO SINGH BHANDARI
UTTARAKHAND TECHNICAL UNIVERSITY,
DEHRADUN, UTTARAKHAND, INDIA
(FORMERLY UTTARAKHAND TECHNICAL UNIVERSITY)
