

Vice Chancellor's Message

Dear Students

I take this opportunity to welcome all students to the new academic session 2023-24 and hope that this session will be much more thrilling and exciting. Also, I warmly welcome and congratulate the new students for getting into the various programs for making their career in the affiliated and campus Institutions of the University. I am happy to share that since revamping of all the programs as per NEP 2020 in 2022-23, the university has been trying hard to qualitatively enrich its processes and create enabling provisions for multidisciplinary

education. The new Choice Based Credit System is embedded with numerous opportunities for the students to pursue their passion by choosing subjects of interest and recast their program to earn major degrees along with the minor degrees of their liking. Now, it is up to the students to exploit the facilities available in the new educational framework of the University. I am sure that the students will be using the opportunities provided in the Ordinances and Curriculum to pursue their respective professional and technical programs in the best possible way. Since the last session, the university has been striving to bring transparency & accountability in academic systems, and for eliminating unethical practices in its academic processes. Attempts are being made to get rid of unfair practices at various levels of the education system, but the same requires active interventions from the students as the key stakeholders along with others. As a student, this University is an integral part of your life and every good or bad in it will be influencing you in one or the other way. Therefore, misdeeds and unethical practices should not be allowed at any level in the teaching-learning-examination-evaluation system, as these affect the University negatively, and everyone feels the pinch of it.

It's your pious duty to sincerely pursue education and slog away to achieve your dreams. Proper time management is essentially required for getting engaged in extracurricular activities simultaneously for your holistic development. I call upon you to put in your honest efforts in carrying out academic activities with punctuality and complete involvement, strengthening your competencies, making full utilization of the learning opportunities around you, utilize the provisions available in the university ordinances, facilities at the institutions of study, and exhibiting the highest degree of integrity and commitment towards excellence. Rest assured that the University is committed to imparting the best quality education and upgrading the standard of education offered by it.

I am confident that you will be completing the chosen program with exemplary credentials and make everyone feel proud of you.

With best wishes for grand success ahead!

Prof. Onkar Singh

Vice Chancellor, VMSB Uttarakhand Technical University, Dehradun, (Uttarakhand) INDIA

Date: 14th August 2023
