

ABOUT THE SYMPOSIUM

It is our immense pleasure to announce that an international symposium on “Global Trends in Health, Technology and Management” will be organized by the Global Health Techno Management Forum (GHTMF), Global Institute of Pharmaceutical Education and Research (GIPER), Kashipur, and Veer Madho Singh Bhandari Uttarakhand Technical University (VMSBUTU), Dehradun, India. The symposium aims to review the current global trends in health care, technological evolutions and changes in management strategies which have changed tremendously after the COVID-19 pandemic. The symposium is in line with the objectives of the GHTMF to engage the experts in the relevant fields to provide a common platform to address and discuss the latest developments, problems with the representations from academia, industries, government and non-government organizations, and corporate. The symposium aims to explore the ongoing developments, integration of technologies and management along with other pertinent possibilities to improve health, and be better prepared for future pandemics. The scope of the symposium spans across the areas of drug discovery and development including synthesis of molecules, in different fields of medicine, digitalization in health industry, global health workforce development, artificial intelligence, climate change effects on health, green agriculture and sustainability and other areas related to management. The symposium will also provide opportunities of collaboration, networking and interactions for questing and solving real world problems such as health workforce and other resource scarcity especially to overcome emerging needs of health. We look forward towards your active support and participation and also by sending the participants which would go a long way in making the event success.

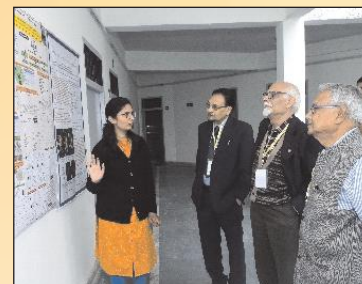

ABOUT GHTMF

Global Health Techno Management Forum (GHTMF) formed by the Krishna Memorial Trust and Global Institute of Pharmaceutical Education and Research, Kashipur in the year 2023. It is supported by eminent personalities in the field of health, technology and management, the forum has under its wings distinguished academicians, scientists, and leaders. The forum aims at providing a common platform among educationists, corporate, industries (Health, Pharmacy, Biotech, Chemicals), politicians, the media and policy makers to augment health and management, educational growth and research. It will align the big leaders of health management and technology from various regions of India and countries around the globe to make an open space for networking and interactions for questing and solving the problems and making new business and creation of resources. The forum aims to delve into a wide array of pertinent topics such as drug design and discovery, digitalization in healthcare, artificial intelligence, research and innovation, sustainability, green agriculture, emerging technologies, and block chain. The international symposium on “Global Trends in Health, Technology and Management” being organized in Dehradun would aim to cover these topics through lectures from the experts, oral and poster presentations from the students.

ABOUT GIPER, KASHIPUR

Global Institute of Pharmaceutical Education & Research (GIPER) is one of the premier pharmacy academic and innovative research institute of India. It is located at the city of Kashipur, Udham Singh Nagar, Uttarakhand and managed by Krishna Memorial Trust (KMT) which is run by a team of scientists and educationists with the aim of providing an academic excellence in pharmaceutical sciences. The institute is well equipped with state of art facilities for drug discovery research. It puts emphasis on research and has successfully completed research projects under CSIR-OSDD scheme. It has organized several seminars such as the International Symposium on Drug Design and Development Research (DDDR-2021), International Symposium on Current Trends in Pharmaceutical and Medical Sciences (CTPMS-2020), International seminar on Global Trends in Health and Environment (2016), International Seminar on Pharmaceutical Education and Research (ISPER-2010), all of which were organized in GIPER, Kashipur and the 9th International Symposium on Computational Methods in Toxicology and Pharmacology Integrating Internet Resources (CMTPI-2017) was organized at Goa. The institute has produced several Gold medallists in the past years in the stream of pharmacy. The passed out students of GIPER are well placed in pharmaceutical sector.

ABOUT DEHRADUN

Dehradun is the winter capital of Uttarakhand which is also known as "Devbhoomi" (The land of the Gods) due to its religious significance and numerous Hindu temples and pilgrimage centers found throughout the state. Dehradun forms the part of Garhwal region (the other being the Kumaon region) of the Uttarakhand. Dehradun is located in the Doon Valley on the foothills of the Himalayas nestled between Song River, a tributary of Ganga on the east and the Asan River, a tributary of Yamuna on the west. The city is noted for its picturesque landscape and slightly milder climate. Dehradun derives its name from the historical fact that Baba Ram Rai, the eldest son of the Seventh Sikh Guru Har Rai, set up his "Dera" (camp) in "dun" (valley) in 1676. This 'Dera Dun' later on became Dehradun.
